Spring is great for Grilling - Follow our tips and stay Safe!

There's nothing like outdoor grilling. It's one of the most popular ways to cook food. But, a grill placed too close to anything that can burn is a fire hazard. They can be very hot, causing burn injuries. Follow these simple tips and you will be on the way to safe grilling.

Propane and charcoal barbecue grills should only be used outdoors. The grill should be placed well away from the home, deck railings and out from under eaves and overhanging branches. Keep children and pets at least 3 feet away from the grill area. Keep your grill clean by removing grease or fat buildup from the grills and in trays below the grill. Never leave your grill unattended. Always make sure your gas grill lid is open before lighting it.
