

JUNE 2019

HUNTER'S COVE INSIGHTS NEWS & STORIES

We would like to thank everyone who came out and helped make Resident Appreciation Week a

Our President's Message

For the third year, Hunt Military Communities teamed up with wear blue: run to remember in organizing individual Memorial Day events in our communities. More than half of HMC locations participated in the worldwide event. wear blue: run to remember, a national, nonprofit organization is committed to building a running community that honors the service and sacrifice of the American

military. It's expected that over 20,000 runners and walkers around the world became part of a living memorial to America's fallen heroes and a show of support for the families they left behind.

wear blue teams met at various locations worldwide to participate in this run including many HMC locations. The wear blue Memorial Day event uses the power of community and the accessibility of running and walking for community members to become a living memorial through their steps to honor generations of America's fallen heroes. Wear blue: run to remember was started by a Gold Star spouse, who lost her husband in Afghanistan, at the time she had a three year old, a one year old and a three week old.

Participants were provided with the name of an American Service Member who died in battle as well as a unique bib to share the name of the service member whom they honor with their steps. Each run began with a Circle of Remembrance where the name of each military member killed in war is called out.

Thank you to all who ran, walked, and supported this worthwhile event. It is because of your dedication to the cause we are able to honor and recognize our American fallen heroes in such a thoughtful way.

Safety Tip

Locating and Operating Water Shut-Off Valves

Knowing How and Where to shut off your toilet or sink water supply is important in times of Emergencies.

Toilets: Toilets have a single cold water valve called a "stop valve". Turn the handle clockwise to shut off the water if your toilet is overflowing.

Sinks: Look for the valve under the sink, usually at the back of the cabinet. The valves are connected to the water supply that serves your faucet and there is one for hot and one for cold. The cold is usually on the right and the hot on the left hand side. Turn the valve(s) clockwise to cut off the water supply.

Luis our Maintenance Technician is demonstrating in the photos to the right.

Summertime has Arrived

Pool is open and Popsicle Tuesdays are back!

All of our littlest residents will be out and about enjoying all the Hunter's Cove has to offer this summer. We would like to ask that you watch your speed while driving through our community in order to ensure the safety of all of our residents.

The Pool is officially open and ready for you to enjoy! Be sure to have your pool passes handy while enjoying the area and remember that each household is allowed only 2 guests at any time.

Replacement passes and keys are available in the leasing office during normal business hours.
